Allocation of Funds for Urban Development

239. SHRI V. NARAYANASAMY : Will the PRIME MINISTER be pleased to state :

(a) whether the allocation of funds in the Seventh Five-Year Plan for the urban development is only 5 per cent of the total demand made by the concerned Department ;

(b) whether Government propose to increase the outlay for urban development ; and

(c) if so, what quantum of the amount is proposed to be allocated ?

THE MINISTER OF STATE IN THE MINISTRY OF PLANNING AND IN THE MINISTRY OF FOOD AND CIVIL SUPPLIES (SHRI AJIT PANJA) : (a) The Ministry of Urban Development sought a provision of Rs. 2236 crores for the Urban Development Programme in the Central Sector for the Seventh Five Year Plan. Keeping in view the resources position, priorities adopted for the Seventh Plan and the allocation made in the Sixth Plan, an outlay of Rs. 168.01 crores was provided. This represents 7.5 per cent of the provision sought by the Ministry of Urban Development. The allocation of Rs. 168.01 crores made for the Seventh Plan marks a step up of 52.7 per cent over the Sixth Plan outlay of Rs. 110 crores.

(b) and (c) As all the resources available for the Seventh Plan have already been allocated among different Sectors, there is no possibility of increasing the allocation for Urban Development.

Indian Scientists working abroad

240. DR. MOHD. HASHIM KIDWAI : Will the PRIME MINISTER be pleased to state :

(a) whether Government's attention has been drawn to a news item

which appeared in the 'Times of India' of the 25th March, 1986 to the effect that Government are working out programmes and policies to help qualified Indian scientists and scholars to return and work in India ; and

(b) if so, what are the details of such programmes and policies ?

THE MINISTER OF STATE IN THE MINISTRY OF SCIENCE AND TECHNOLOGY AND IN THE DEPARTMENTS OF OCEAN DEVELOPMENT, ATOMIC ENERGY, ELECTRONICS AND SPACE (SHRI SHIVRAJ PATIL) : (a) Yes Sir.

(b) Government is in the process of evolving a new plan to attract qualified Indian Scientists and Technologists, who during the past few years had gone to other countries, to return to India.

In this connection a number of measures have been adopted in the past. Some of these are : —

1. Programmes have been launched through which 'core' groups of scientists are created in the country with all necessary modern facilities required for pursuing research in new and frontier areas of science.

2. There is a provision for temporary placement of scientists and technologists under the scheme of Scientists Pool.

3. A provision has also been made for creation of supernumerary posts.

4. Facilities to import equipments have been provided to the scientists and technologists returning from abroad.

5. With a view to assisting non-resident Indians to secure expeditious clearance of their applications for setting up of industrial units in the country, a Special Cell has been created in the Ministry of Industry.

6. Delegation of enhaced administrative and financial powers have been made to scientific institutions to improve working conditions of scientists.

7. New scientific departments/organisations such as Departments of Biotechnology, Ocean Development, Environment, Non-Conventional Energy Sources, Centre for Development of Telematics (CDT) etc. have been set up and some of these are in high technology areas which are likely to provide exciting opportunities for the scientists and technologists and attract them into the country

8. Total outlay for science and technology has been increased in the successive Five-Year-Plans.
